WHOLESALE TRADE-LIST

OF THE

Morrisville Nurseries

SAMUEL C. MOON

Morrisville, Bucks County, Penna.

THE MORRISVILLE NURSERIES are in Bucks county, Pennsylvania, about one mile from Morrisville, a station on the New York Division of the P. R. R., thirty miles from Philadelphia, sixty miles from New York, and two miles from Trenton, New Jersey. Carriages can always be obtained from the stations in Trenton. To get to the Nursery from Trenton, cross the Delaware River over the Bridge-street bridge and continue out Bridge street, one and a half miles westward toward Fallsington.

THROUGH FREIGHT RATES from Trenton to all principal cities north, south, east and west, via Pennsylvania, Reading, or Lehigh Valley Railroads. Also, water transportation to Philadelphia and New York. All goods will be delivered to the railroad or steamboat in good condition, after which they are entirely at the risk of the purchaser. Should any loss or delay occur to goods in transit, the forwarding company alone must be held accountable and responsible. Packing is done in first-class manner, and charged for at cost of material used.

ALL CLAIMS for errors or deductions must be made immediately upon receipt of goods.

TERMS CASH, unless by special agreement. I can ship by express, C. O. D., when desired, with charges for collection added to bill.

Address all orders and communications to

SAMUEL C. MOON,

Telephone 811-A, Trenton, N. J., Exchange.

Morrisville, Bucks County, Penna.

 **OUR NURSERY** has been recently examined by the Special Agent of the Department of Agriculture for the state of Pennsylvania, and no evidence of the presence of injurious insects or diseases was found. The nursery is carefully examined by a competent inspector every month, and it is believed to be entirely clear of San Jose scale. Copy of inspection certificate will be furnished when requested.

SAMUEL C. MOON'S WHOLESALE TRADE-LIST

LARGE STOCK.

Frequently we have calls for large, well grown specimen trees and shrubs, for producing immediate effect in new plantations.

The following are a few well developed plants that have been transplanted several times, and are still standing in cultivated land. They have excellent roots, and most of them can be shipped with heavy balls of earth if desired.

Further particulars respecting the stock will be furnished on application, but whenever practicable, it is more satisfactory for purchasers to visit the Nursery and examine such stock in person. We are glad to receive such visitors.

- 4 BEECH, American, 4 in. cal, 15 ft.
- 10 " European, 4 to 6 in. cal., 15 to 20 ft.
- 4 " Purple-leaved, 4 to 5 in. cal.
- 2 " " 9 in. cal.
- 1 CERCIDIPHYLLUM, 14 ft., 4-in. cal., bushy, branched low.
- 15 ELMS, 5 to 8 in. cal., 25 to 35 ft.
- 6 LINDEN, European, 3 in. cal., 10 to 12 ft., low branched.
- 6 MAGNOLIA Soulangeana, 10 to 12 ft., large bushes, branched low.
- 8 " Kobus, 9 to 12 ft., 3 in. cal., low branched, bushy tree.
- 1 MAPLE, Red Colchicum, 8 in. cal., 35 ft.
- 2 " Red or Scarlet, 8 to 9 in. cal., 35 to 40 ft.
- 6 " Sugar, 6 to 8 in. cal., 20 to 45 ft.
- 3 OAK, English, 3 in. cal., 12 to 16 ft.
- 4 " Willow-leaved, 4 to 5 in. cal., 14 to 16 ft.
- 75 ALTHEA, Double White, tree-form, 3-year heads, 6 to 8 ft.
- 2 BOX TREES, 8 ft. high, loose, open habit, not sheared.
- 8 JAPAN JUDAS, 6 ft., large bushes.
- 100 DEUTZIA candidissima, crenata, scabra and Pride of Rochester, 6 to 8 ft., large bushes, 4 to 5 ft. in diameter.
- 20 VIBURNUM plicatum, 7 to 8 ft., well developed bushes.
- 12 WISTARIA sinensis, large, spreading bushes, 5 to 6 ft.
- 20 ERIANTHUS ravennæ, whole clumps, 12 in. in diameter.
- 100 EULALIAS, Japonica, Green Type, variegata, zebrina and gracilima, 12 to 15 in. in diameter.
- 100 HARDY ORANGE (Citrus Trifoliata) 5 to 6 ft., fine bushes.
 - 1 Parkman's Double Flowering Crab, 8 ft., large bush; branched low.
- 4 PICEA Nordmanniana, 12 to 14 ft.
- 4 ABIES excelsa inverta, 10 to 14 ft.
- 1 OXYDENDRON arborea (Sorrel Tree), 10 ft., well branched.

LARGE TREES.

I have some extra-fine, large specimens of several of the above varieties. These trees have been frequently transplanted and root-pruned, and are kept in proper condition for moving. They are growing on land with a clay subsoil, will hold good balls of earth, and can be shipped almost any distance. Shall be glad to receive visits or correspondence from those who have use for such stock.

AZALEA AMCENA. I have a fine stock of this scarce but valuable plant. It is one of the choicest dwarf evergreen shrubs for small yards and for massing, and for bordering groups of rhododendrons or other broad-leaved evergreens. It blooms very freely in early summer, and forces with the greatest ease. The flowers are semi-double, 1 inch in diameter and of rich magenta color, borne in great profusion. When full grown the plants attain a size of 3 to 4 feet in height. For prices, see above.
